Volcano

La serie Volcano di Ceramica Rondine nasce nel 2016, da allora, è rimasta intramontabile e attuale, resta infatti ad oggi, una delle serie più ricercate e vendute, grazie al suo stile contemporaneo e raffinato. Una scala cromatica che si adatta ad ogni abitazione, o uso commerciale, con un richiamo all'effetto cemento da sempre considerato simbolo di design. Un programma di serie che non lascia spazio a incertezze: formati e spessori diversi per poter dare continuità dal pavimento interno al pavimento esterno. Rivestimenti pensati per rendere unici angoli o intere pareti, e otto nuances, che spaziano dal deciso Dark a sfumature di grigio come il Grey e Steel, per arrivare ai toni più caldi del Taupe, Beige e Sand. In palette anche l'intramontabile White e la sua declinazione Ice. Volcano è una serie completa, disponibile in grandi lastre ,formati rettificati, decori e mosaici, ma anche in spessorati fino a 20mm. Non ci sono ragioni per cui non scegliere questa serie, che garantisce oltre che funzionalità e tutti i benefici del gres, anche un assoluta attualità nonostante lo trascorrere del tempo.

The Volcano series by Ceramica Rondine was first created in 2016. Since then, it has remained timeless and very much up to date. Today, it is still one of our most sought after and best-selling series, thanks to its contemporary and refined style. A scale of colours to suit every home, or commercial environment, recalling the concrete effect that has always been considered a symbol of design. A standard programme that leaves no room for uncertainty. Different sizes and thicknesses to provide indoor-outdoor floor continuity. Coverings designed to make corners or entire walls unique, and eight different colour nuances, ranging from the decisive Dark to shades of grey such as Grey and Steel, and the warmer shades of Taupe, Beige and Sand. The colour range also includes timeless White and its Ice declination. Volcano is a complete series, available in large slabs, rectified sizes, decorations and mosaics, as well as in thicknesses of up to 20 mm. No reason at all exists not to choose this series, which is not only functional and has all the benefits of porcelain stoneware, but also remains very much in step with the times.

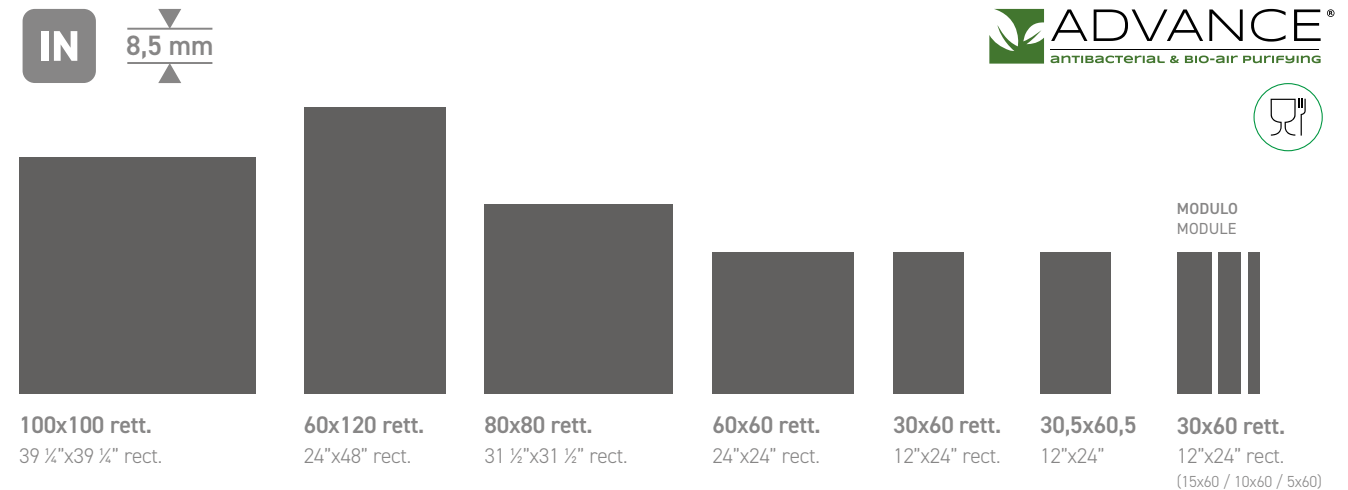

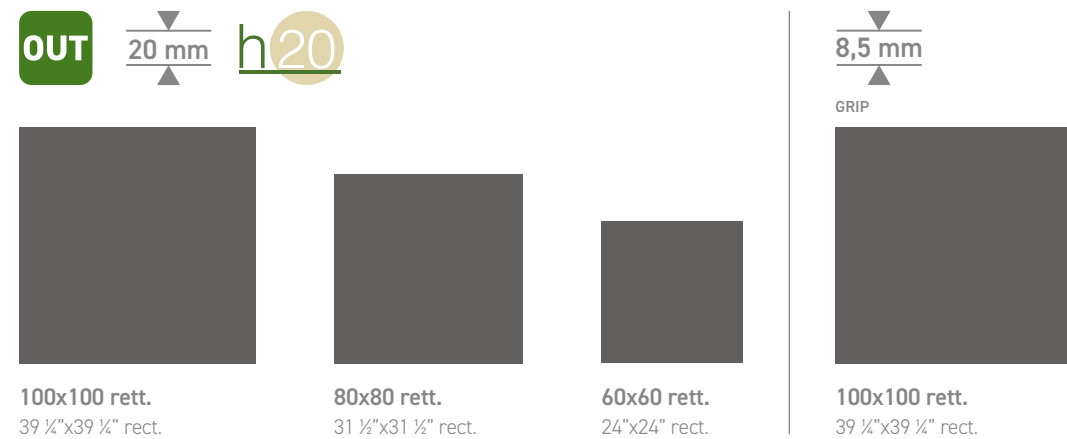

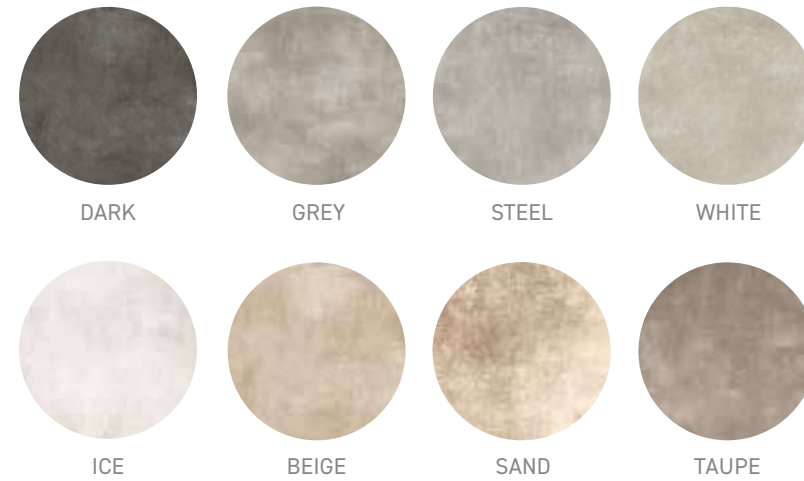

Depuis sa création en 2016, la collection Volcano de Ceramica Rondine conserve une allure impérissable et actuelle, et en effet, aujourd'hui, elle est encore l'une des plus raffinées et appréciées en raison de son élégant style contemporain. Une palette de couleurs qui s'adapte à toutes les habitations et à tous les lieux commerciaux, avec un effet ciment considéré depuis toujours comme un symbole de design. Une gamme qui lève toutes les incertitudes : variété de formats et d'épaisseurs pour apporter une continuité visuelle entre sols intérieurs et extérieurs. Des carreaux muraux conçus pour donner un caractère unique à des coins de mur ou à des parois entières, et huit nuances qui passent de l'intensif Dark à des tonalités de gris comme Grey et Steel pour aboutir aux colorations plus chaudes Taupe, Beige et Sand. Le nuancier englobe aussi l'indémodable White et sa variante Ice. Volcano est une collection complète, disponible en grandes dalles, en formats rectifiés, avec décorations et mosaïques, ainsi qu'en versions ultra épaisses jusqu'à 20 mm. Rien ne s'oppose au choix de cette collection qui garantit non seulement utilité pratique et tous les avantages du grès, mais également un aspect absolument actuel qui se moque du passage du temps.

Die 2016 entstandene Serie Volcano von Ceramica Rondine ist bis heute unvergänglich und aktuell geblieben. Mit ihrem kontemporären und ausgesuchten Stil ist sie noch immer eine der gefragtesten und umsatzstärksten Kollektionen. Die Farbskala eignet sich für jede Wohnung bzw. für jedes Gewerbeobjekt; sie verweist auf die Betonoptik, die seit jeher für modernes Design steht. Ein Programm, das keine Fragen offenlässt: Mit den verschiedenen Formaten und Stärken können Innen- und Außenböden nahtlos ineinander übergehen. Wandbeläge, die dafür konzipiert sind, Ecken oder ganze Wände einmalig zu gestalten, in acht Nuancen vom kräftigen Dark über Grautöne wie Grey und Steel bis hin zu den wärmeren Farbtönen Taupe, Beige und Sand. Die Palette umfasst auch das unvergängliche White und seine Variante Ice. Volcano ist eine rundum komplette Serie. Sie ist in großen Platten, rektifizierten Formaten, Dekoren und Mosaiken erhältlich, aber auch in erhöhten Stärken bis zu 20 mm. Der Entscheidung für diese Serie steht nichts entgegen: Sie garantiert nicht nur alle Leistungen und Vorteile des Feinsteinzeugs, sondern auch eine Optik, die im Laufe der Zeit unverändert aktuell bleibt.
